October 30, 1947

Mr. Brecht, the committee has carefully gone over this statement. It's a very interesting story of uh, German life, but it's not at all pertinent to this inquiry. Therefore we do not care to have you read the statement. Now I'll repeat the original question. Uh, are you now or have you ever been a member of the Communist party of any country.

Edit

You know, you should never actually boil coffee, I tell you.

Coffee should never boil.

Once it boils, it is ruined.

And don't even think of pouring the coffee into a tin pot because the aroma just disappears.
